

## CHICAGO ON TOP.

Every law abiding citizen in the United States will rejoice to hear that the Chicago dynamiters have been sentenced to be hung. It is an excellent thing for law and order in the United States that the first attempt made to introduce active anarchy into this country was met and throttled. The men who wantonly destroyed lives and property in Chicago under the cover of righting labor grievances, were the worst of a class of law breakers which had been spumed out of European prisons, and who came to this country on a mission of loot and murder. They never did a stroke of work in their lives, and the evidence showed that they were incited to their cowardly, deadly work, by the ravings of a malevolent crank, who edited a dynamite newspaper, and took his pay in the notoriety it gave him. Whether he will be hung as an accessory of the fiendish crimes committed by the Anarchists, the dispatches do not say, but it is clear that such a fellow ought to be hung in advance of all the rest. The man was but little removed from a raving maniac, yet his utterances were accepted and his advice followed by a gang of cowardly Socialists who, on being driven from the old country by the police, came here and attempted to regulate the methods of self-government in vogue in the United States.

This summary disposal of the Anarchists will have a wholesome effect upon the raving hell hounds who are scattered over the rest of country on the same mission. After these cranks have been hung, the Government should take some steps to close up their organs, and see that they stay closed.

## Reno Troughs

The army of loafers, sneak-thieves, opium fiends and bums is gathering again in Reno, and the jail is kept crowded all the time. An average of fifteen have slept there every night this month, and been fed by the taxpayers. Some of these men are ready for any bad deed, so long as it is not too dangerous. They would find it impossible to live if foolish women did not feed them. Nothing is more commendable than true charity, but the practice of feeding tramps at the back doors is robbing the industrious to give to the lazy and vicious. It imposes a heavy burden upon an already tired community. It keeps a gang at the door, who, upon the slightest opportunity being given them, are ready to break in and steal. It is worse than foolish to provide means for such a crew to live on, and the practice should be discouraged.—Gazette.

—We take the following from the Salt Lake Tribune:

Silver was yesterday 91½, and wheat in New York was 82 cts. per bushel. Do the wheat raisers ever stop to think that if justice were done to silver their wheat would advance 30 per cent in a month?

Silver yesterday was 91½. Best upland cotton 7½ cts. Will the cotton raisers never see that before their cotton will raise, silver must?

Gold was yesterday at a premium of nearly 40 per cent over silver. Do the workers and producers ever stop to think that when silver is at a discount all their labors and products have fallen correspondingly?

A few days ago when a Michigan banker closed his doors against depositors, a woman who had \$800 on deposit took a revolver and sailed up to his house. The banker wasn't at home, but his wife was. She had on a pair of \$600 diamonds, and a \$200 gold watch, and a couple of bracelets worth \$100 apiece. "Shed!" observed the woman with the revolver. "What?" "I want that jewelry as security for my money, and I'm in a hurry." She got it, but she had not held it for twenty-four hours before it was quietly redeemed and she was asked to keep mum.

—Senator Fair was not registered in this State two years ago and is not registered now. It is not at present known in what ward he is registered in San Francisco, probably the Bloody Sixth.
